Highway Department Briefs

Snow Removal Procedures

After a minimum 2" snowfall, parking is not permitted on Township maintained roads, until it has been cleared edge to edge. Parked vehicles may be towed with the owner responsible for related costs.

A Reminder When Shoveling Snow

When shoveling your driveway of snow, the best way to assure that the snow plows clearing the street will minimize the amount of snow left in an already cleared driveway is to shovel snow in the direction of traffic and also make a pocket on the opposite side of your driveway. (See illustration to the right.)

By doing this, snow that has accumulated on the plow will dump into that pocket, and will reduce the possibility of snowplows inadvertently making your driveway snowbound.

Clearing Driveway Snow Sensibly

When removing snow from your driveway, do not shove, push or blow it onto the public roadway, as this will create a slippery and hazardous surface when traffic passes over it. Also, don't push it to the other side of the road, as this would create a narrower area in the roadway at that point. Vehicles approaching from the opposite direction may find it difficult to pass safely through that area.

When piling snow at your driveway entrance, make low mounds on both sides. Make them low enough so the roadway is clearly visible in both directions when you are seated in your vehicle. Also, please prevent your children from playing on or digging tunnels in the snow piles as the snowplow drivers may not be able to see the children at play.

Don't Forget Your Mail Carrier

Clear an area in front of your mailbox so they can easily approach. If there is a fire hydrant on your property, shovel a path to and around it from the roadway.

Vehicle Damage

To prevent damage to vehicles and snow plows please remove all decorative rocks, logs or other objects and place at least 6 feet from the paved edge of the road

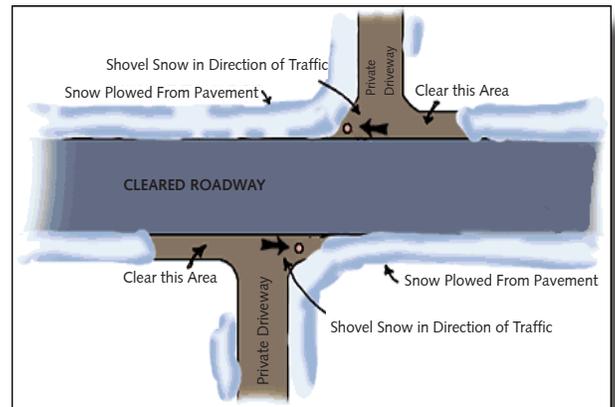

Summer and Fall Projects

The Wright Woods Tributary has been a source of flooding for South Elm Road and downstream to the crossing of River Oaks Drive. To alleviate the flooding, a new 36 inch diameter storm sewer was installed from the north end of South Elm Road approximately 800 feet to West River Oaks Drive, then approximately 400 feet west to connect with an existing storm sewer. Funding for this project was provided in part by the Lake County Stormwater Management Commission through a Watershed Management Board Grant.

In order to prevent erosion contamination from entering the Des Plaines River, the storm sewer project used a product called a Floc Log. The Floc Log is a tailored log block that contains a blend of water treatment components used to improve water clarification and control erosion. The Floc Log is hung in the storm sewer pipe. When erosion runoff comes into contact with the Floc Log, the chemicals react with the runoff. The fine particles bind together and become heavy, thus falling out of the water flow to the bottom of the pipe. The clean water then flows from the pipe into the waterway. The bound together particles move to the end of the pipe where a silt fence prevents the erosion contamination from entering the waterway. The Floc Log can be replaced during the project and removed when the project is complete.

Over the summer the highway department crew continued their efforts to keep storm water flowing unencumbered through the Vernon Township storm sewer system. Ditch work or storm sewer replacement occurred in several locations throughout unincorporated Vernon Township including Arlyd Road, Raleigh Drive, Raphael Ave, and two locations on Woodbine Circle

Additionally, all roads within the Krisview Subdivision along with Indian Creek Road, Hotz Road and Olsen Court were ground and repaved.

The Assessor's Report

Homestead Limited Exemption

This exemption will lower the equalized assessed value of your property by \$6,000. This exemption is given to all properties automatically as long as it is your primary residence and you are not receiving a Homestead Exemption at any other property. Your primary residence is determined by your driver's license, voter registration and income tax return. There is no application or renewal to fill out for this exemption. Rental properties do NOT qualify for a Homestead Limited Exemption, and if you are receiving two, the county can recapture the money on your tax bill.

Senior Citizens Homestead Exemption

If you are the owner of a residential property and are 65 years or older, you qualify for a Senior Homestead Exemption. The Senior Homestead Exemption lowers your equalized assessed value \$5,000 in addition to the \$6,000 from your Homestead Limited Exemption. To figure out the exact amount you will get off your tax bill, you take the \$5,000 and multiple it by the tax rate for that year.

Senior Citizens Assessment Freeze

The Senior Freeze forms are mailed from the county between March and April. You will automatically receive an application if you are receiving a Senior Citizen Homestead Exemption. This second senior exemption does have a requirement of a household total income of \$55,000 or below including social security before deductions. If you do not receive an application the township assessor's office always has extras. The form does need to be notarized before mailing it back to the county. The Vernon Township's Assessor's Office will help you fill out this form, notarize it and mail it in for you.

Taxing Districts Levies Drive the Real Estate Tax Bill

Generally, taxes do not increase because of increasing assessments and they will not decrease when property values decline. On an individual basis, if assessments in one area of the township decrease and all others increase, the declining area may see some relief in their taxes, meaning the tax burden has been redistributed. However, if assessments all increase by a similar amount, say 10%, there will be absolutely no change in your tax bill UNLESS taxing districts levies change.

Levies increase because taxing bodies spending increases. Taxes increase when levies increase, even when assessments decrease. Assessments and tax rates do not create the tax burden and they do not change the tax burden; they only distribute the tax burden that is created by the levies of taxing bodies.

Back Packer Club

The generosity of Vernon Township residents once again was apparent in the donation of over 120 back packs filled with new school supplies. Vernon Township wishes to thank everyone that helps to support this program. The children receiving the new school supplies are so grateful.

Sarah and Beth (left), from Girl Scout Troop 41617, participated in Vernon Township's Back Pack Club. The girls collected, sorted and delivered full back packs to Vernon Township. Vernon Township wishes to thank the girls for their commitment to service.

Vernon Hills second graders, Paige, Tessa, Ella and Taryn (right) raised money for the Township's "Backpacker" Club through a lemonade and bake sale. The girls enjoyed shopping for the supplies and filling the backpacks. Vernon Township wishes to thank the girls for all their hard work.

Vernon Township Garage Sale

Although storms past through our area the Friday night prior to Vernon Township's 7th Annual Garage Sale, Saturday morning September 19th arose with blue skies and puffy white clouds. Setting up in a few left over puddles did not dampen the enthusiasm of the sellers. As the day progressed buyers and sellers alike enjoyed the Prairie View Metra Station location as well as the autumn temperatures.

The Township would like to thank those who attended the Garage Sale and made it such a big success. Additional thanks go to the sellers. The proceeds of the spaces purchased went to the Vernon Township Food Pantry. At the end of the day, a charity donation truck from The Epilepsy Foundation was provided so sellers could donate their unsold items to charity. We were able to fill a 20 foot truck!! Thank you!

To all who attended, Vernon Township hopes you found a bargain or two. Stay tuned to future newsletters for information on the date of next year's garage sale.
