From the Desk of the Assessor

Exemptions are also known as Property Tax Relief. There are a variety of exemptions you can receive on your tax bill. It is up to you as a taxpayer to make sure you are receiving the exemptions for which you are eligible.

Everyone should receive a General Homestead Exemption as long as the property is your primary residence. The General Homestead Exemption will take off 6,000 from your assessment before the tax rate is applied. A primary residence means you live at that property; it is the address that appears on your driver's license, and it is the address you are registered to vote from. If you are not receiving this exemption, please call our office so that it can be corrected. If you are receiving the Homestead Limited Exemption on more than one property, it is essential to call our office as well to get this corrected. Illinois law only allows the Homestead Exemption on your primary residence. Most states, if not all, have this same law.

Other exemptions you might qualify for are:

- Senior Exemption
- Senior Freeze Exemption (FREEZE FORMS ARE USUALLY MAILED OUT IN MARCH/APRIL)
- Home Improvement Exemption
- Disabled Veteran's Standard Homestead Exemption
- Disabled Veteran's Exemption
- Disabled Person's Homestead Exemption
- Returning Veteran's Exemption

Property Tax Rate

What is the property tax rate and how is it calculated? Property tax dollars are determined by two specific things, your assessment and the Property Tax Rate. **By law**, your assessment is determined each year by the assessor based on the prior 3 years of sales. Your Property Tax Rate is determined by the amount of money your municipalities need to operate for the year, also known as their budget. Most tax bills include multiple tax districts such as, County, Village, Library, Park District, High School, Grade School, College, Forest Preserve, Fire, Police, and Township. Even when assessments decline, all taxpayers still need to pay their portion of these district levies for the year. You may NOT see tax bills go down unless these taxing bodies decrease their spending. After the Lake County Treasurer receives all the budgets and has the final assessment totals, the tax rate is determined and applied to each tax bill. The tax rates will go up year to year if the budgets continue to go up year to year. Tax rates are determined right before the tax bills come out, usually sometime around April. Please note that the county tax extension office will be calculating higher tax rates in general for the 2011 payable 2012 real estate tax bills. Rates are calculated by dividing the legal budget also known as levy requested amount by the taxable equalized assessed value of each given district. With property assessments decreasing in general and correspondingly decreasing taxing districts equalized assessed values, the result is a higher tax rate. Even if spending remains flat for a district a lower equalized assessed value would result in a higher tax rate as calculated by the county.

The 2011 tax bill payable in 2012 is mailed out usually the first week in May; the due dates are June 6, 2012 and September 6, 2012. The Lake County Treasurer's Office mails out over 264,000 tax bills and collects over 2 billion dollars in taxes. They only send out one tax bill a year with two stubs attached. To avoid penalties, payments must be US postmarked by the actual due date.
