

- 1) I'm curious to know if you have received enough proposals for the : "Request for Proposal (RFP) Website Redevelopment, Design, Web Hosting, Rebranding, and Implementation of the Vernon Township Website" RFP.

The deadline for submitting a response to the RFP is July 6, 2017. No minimum number of proposals is required.

- 2) Perhaps you are considering extending the bidding deadline or splitting up the project into smaller perhaps easier to bid projects? I am very interested in getting my firm involved in bidding on government projects. But, even a single bullet point of this RFP could be a multi-month project. If you have any advice you could give me on bidding on government projects would be greatly appreciated.

At this time, Vernon Township is moving forward with a complete RFP package and not subdividing items.

- 3) Lastly, if you have selected a vendor or after you do select a vendor, will this be made public? I'd like to reach out to that vendor and see if we could help out on one of the many fronts as a sub-contractor.

All records related to this RFP are subject to the Freedom of Information Act

- 1) I also forgot to mention my business is 100% Veteran Owned (by me.) I am a U.S. Army vet. Is there any procedure to register or prove my company ownership to the township? Does the township prefer to use or have any mandatory percentage of services to use from veteran owned businesses?

Vernon Township does not currently have a policy regarding veteran-owned businesses; however, veteran-owned businesses are encouraged to submit a proposal.
